

Climbing Dynamic Rope with Buckle

This Climbing Dynamic Rope with Buckle capacity range of 130 - 310 pounds. You can truly rest assured thanks to the one-inch polyester webbing and ANSI-tested steel snap hook that have been used.

As the shock absorption is built directly into the lanyard, this fall protection kit is really a great lightweight solution. Also, thanks to the lanyard stretch, the risk of tripping gets minimized. What is more, the safety rope is a bright orange colour which means that it can be seen from far.

Introduction of Climbing Dynamic Rope with Buckle

This Climbing Dynamic Rope with Buckle capacity range of 130 - 310 pounds. You can truly rest assured thanks to the one-inch polyester webbing and ANSI-tested steel snap hook that have been used.

As the shock absorption is built directly into the lanyard, this fall protection kit is really a great lightweight solution. Also, thanks to the lanyard stretch, the risk of tripping gets minimized. What is more, the safety rope is a bright orange colour which means that it can be seen from far.
