

### WCB TYPE Manual Lever Block

Feature of WCB TYPE Manual Lever Block

- 1.Low carbon alloy steel structure plate using, safe and reliable, durable
- 2.Using G80 high strength lifting chain, high safety factor and long service, life Stable rotation, high efficiency, pulling force of light
3. Using double pawl braking to make sure higher safety performance
- 4.Ribbed handle and thickened plate design, strengthen the strength of the hand hoist Optional load limiting device
- 5.The adoption of the whole bearing, greatly improve the product performance, service life

### WCB TYPE Manual Lever Block Feature

1. Low carbon alloy steel structure plate using, safe and reliable, durable
2. Using G80 high strength lifting chain, high safety factor and long service, life Stable rotation, high efficiency, pulling force of light
3. Using double pawl braking to make sure higher safety performance
4. Ribbed handle and thickened plate design, strengthen the strength of the hand hoist Optional load limiting device
5. The adoption of the whole bearing, greatly improve the product performance, service life
6. Through the CE, GS standard certification

### WCB TYPE Manual Lever Block Specification

Model	WLB-0.5	WLB-1	WLB-1.5	WLB-2	WLB-3	WLB-5	WLB-10	WLB-20	WLB-30	WLB-50
	T	T	T	T	T	T	T	T	T	T
WLL(T)	0.5	1	1	2	3	5	10	20	30	50
The height of rate load(M)	2.5	2.5	2.5	3	3	3	3	3	3	3
Test load(T)	0.75	1.5	2.25	3	4.5	7.5	15	30	45	75
Effort required to lift max load(N)	300	330	360	365	385	435	435	435*2	435*2	435*2
no. of load chain(mm)	1	1	1	2	2	2	4	8	12	22

no.of load chain(mm)	6	6	8	8	8	10	10	10	10	10
Measurement (mm)	A137	162	183	194	220	288	384	625	691	958
	B137.5	146.5	170	170	170	191	195	209	312	496
	D35	35.5	45	42.5	50	64	85	110	110	170
	H270	317	399	414	465	618	798	890	1380	2578
Net weight (kg)	804	11	16.2	18.5	25.6	42.8	79.5	193	220	1092
